

Evelo Biosciences to Present at BMO Capital Markets 2018 Prescriptions for Success Healthcare Conference

December 5, 2018

CAMBRIDGE, Mass., Dec. 05, 2018 (GLOBE NEWSWIRE) -- Evelo Biosciences, Inc. (Nasdaq: EVLO) ("Evelo"), a clinical-stage biotechnology company developing monoclonal microbials to engage immune cells in the small intestine and drive changes in systemic biology, today announced that management will participate in a fireside chat at the BMO Capital Markets 2018 Prescriptions for Success Healthcare Conference on Wednesday, December 12, 2018 at 2:00 p.m. ET.

A live audio webcast of the presentation will be available on the Investors section of the Evelo website at <http://ir.evelobio.com/news-events>. A replay of the webcast will be available for approximately 30 days following the presentation.

About Evelo Biosciences

Evelo Biosciences, Inc. is a clinical-stage biotechnology company developing monoclonal microbials, a new modality of medicines designed to act on the gut-body network. Evelo's product candidates are orally-delivered, single strains of microbes, selected for defined pharmacological properties. They are intended to modulate systemic immunology and biology by acting on multiple naturally evolved biological pathways that link the small intestine to the rest of the body. Evelo believes that monoclonal microbials have the potential to be broadly applicable across many diseases including inflammation, cancer and autoimmune diseases.

Evelo currently has three product candidates, EDP1066 and EDP1815 for the treatment of inflammatory diseases and EDP1503 for the treatment of cancer, for which ten clinical readouts are expected during 2019 and 2020. Evelo is also advancing additional candidates through preclinical development in other disease areas.
