

Evelo Biosciences to Present at Jefferies Virtual Healthcare Conference

May 28, 2020

CAMBRIDGE, Mass., May 28, 2020 (GLOBE NEWSWIRE) -- Evelo Biosciences, Inc. (Nasdaq:EVLO), a clinical stage biotechnology company developing a new modality of orally delivered, systemically acting biologics, today announced that management will participate in a fireside chat at the Jefferies Virtual Healthcare Conference on Thursday, June 4th at 4:30 p.m. ET.

A live audio webcast of the presentation will be available on the Investors section of the Evelo website at <http://ir.evelobio.com/news-events>. A replay of the webcast will be available for approximately 30 days following the presentation.

About Evelo Biosciences

Evelo Biosciences is a clinical stage biotechnology company developing oral biologics that act on SINTAX™, the small intestinal axis, with systemic therapeutic effects. SINTAX plays a central role in governing the immune, metabolic, and neurological systems. The company's first product candidates are monoclonal microbials, single strains of microbes selected for defined pharmacological properties. Evelo's therapies have the potential to be effective, safe, and affordable medicines to improve the lives of people with inflammatory diseases and cancer.

Evelo currently has four product candidates: EDP1815, EDP1867, and EDP2939 for the treatment of inflammatory diseases, and EDP1503 for the treatment of cancer. Evelo is also advancing additional oral biologics through preclinical development in other disease areas.
