

Evelo Biosciences to Present at 39th Annual Cowen & Co. Health Care Conference

March 4, 2019

CAMBRIDGE, Mass., March 04, 2019 (GLOBE NEWSWIRE) -- Evelo Biosciences, Inc. (Nasdaq: EVLO) ("Evelo"), a clinical stage biotechnology company developing monoclonal microbials, a potential new modality of oral biologic medicines, today announced that management will present a corporate overview at the 39th Annual Cowen & Co. Health Care Conference on Monday, March 11, 2019 at 2:10 p.m. ET.

A live audio webcast of the presentation will be available on the Investors section of the Evelo website at <http://ir.evelobio.com/news-events>. A replay of the webcast will be available for approximately 30 days following the presentation.

About Evelo Biosciences

Evelo Biosciences, Inc. is a clinical-stage biotechnology company developing monoclonal microbials, a potential new modality of oral biologic medicines. Evelo's product candidates are single strains of microbes, selected for defined pharmacological properties. They are developed to activate multiple naturally evolved biological pathways by engaging immune cells that link the small intestine to the rest of the body. Evelo believes that monoclonal microbials have the potential to be broadly applicable across many immune-mediated diseases including inflammation, cancer and autoimmune diseases.

Evelo currently has three product candidates, EDP1066 and EDP1815 for the treatment of inflammatory diseases and EDP1503 for the treatment of cancer, for which ten clinical readouts are expected during 2019 and 2020. Evelo is also advancing additional candidates through preclinical development in other disease areas.
